MANAGEMENT DISCUSSION & ANALYSIS

Business Environment

Global growth, currently estimated at 3.1 percent in 2015, is projected at 3.4 percent in 2016 and 3.6 percent in 2017. The pickup in global activity is projected to be more gradual than in the October 2015 World Economic Outlook (WEO), especially in emerging market and developing economies.

The Indian economy expanded by 7.6 per cent in 2015-16 to log the fastest growth among larger countries, also outpacing China. While this was also the fastest growth it is generally perceived as an indication of economic recovery gaining momentum.

As per International Monetary Fund, growth is projected to notch up to 7.5 percent in 2016–17, as forecast in October. Growth will continue to be driven by private consumption, which has benefited from lower energy prices and higher real incomes. With the revival of sentiment and pickup in industrial activity, a recovery of private investment is expected to further strengthen growth.

The Index of Industrial Production (IIP), for the entire 2015-16 fiscal, grew at 2.4 percent, down from 2.8 percent in the previous fiscal. The IIP decelerated in financial year 2015-16, mainly pulled down by weak manufacturing in an environment of subdued investment demand and weak rural consumption.

Industry Developments

The NBFCs saw moderation in rate of asset growth, rising delinquencies resulting in higher provisioning thereby impacting profitability. However, comfortable capitalisation levels and conservative liquidity management, continues to provide comfort to the credit profile of well run NBFCs inspite of the impact on profitability.

The revised regulatory framework released in November, 2014 by the RBI focuses on strengthening the structural profile of the NBFC sector. These changes have to be implemented for systematically implemented NBFC's in a phased manner by March 31, 2018. Some of the key changes are:

- Classification of loan NPAs for NBFCs has also been brought in line with banks.
 NPA recognition will change in a phased manner to 90 days overdue from the current 180 days overdue for loans and 360 days for hire purchase assets.
- II. Increase in Tier I CAR (core CAR) will increase in a phased manner to 10% for NBFC D and NBFC ND SI, thereby increasing loan absorbing capacity and long term capital requirement.
- III. Stringent Corporate governance and disclosure norms for accountability, transparency and trust in NBFC sector IV. Standard asset provisioning will stand increased from 0.25% to 0.40%

Opportunities

Reports from the World Bank indicate that Non Banking Financial Institutions act as critical pillars contributing to macroeconomic stability and sustained economic growth and prosperity, due to their ability to finance firms and individuals at a reasonable cost, reduce volatility by providing multiple sources to finance and park funds and enable creation of a competitive environment characterized by a diverse array of products. This has been proven time and again in developed markets.

Non-Banking Finance Companies (NBFCs) continue to play a critical role in making financial Services accessible to a wider set of India's population and are emerging as strong intermediaries in the retail finance space. Going forward, one should expect NBFCs to further Strengthen their presence in retail finance and grow at a reasonably healthy pace.

Threats

The biggest challenge before NBFCs is that they are facing stiff competition from banks and financial institutions, due to their ability to raise low cost funds which enables them to provide funds at much cheaper rate. More stringent capital adequacy norms have been stipulated by RBI for NBFCs which is making difficult for them to give cheaper finance.

Ever-increasing competition from commercial counterparts whose capacity to absorb losses is higher, counter-party failures, recommendations being made to increase the purview of monitoring by regulatory authorities increase the threat of losing the essence of Non-banking Finance Companies which are specifically designed to reach out and finance certain target groups.

Segment-wise or product-wise performance of the Company

The Company is a Non Banking Finance Company (NBFC). It is engaged in the business of financing which is the only segment in the Company. Hence, the results for the year under review pertain to only financing activity.

Future Strategies

NBFCs have proven their mettle in many other specialized financial services such as factoring, lease finance, venture capital finance, financing road transport and also in the business of securities-based lending such as Loan against Shares, Margin Funding, IPO Financing, Promoter Funding etc. They have also been providing a major boost to Micro, Small and Medium enterprises and other avenues where banks exercise cautious lending. All the above factors further emphasize the potential and opportunities in store for NBFCs and the regulations when designed to provide the right environment, provides impetus to the growth of the sector.

The wholly owned subsidiary of the Company M/s ITAG Business Solution Limited shall continue to focus on the core business area of Knowledge process outsourcing in the forthcoming years.

Risks and concerns

The NBFC industry in general faces the risk of re-entry and new entry of players and existence of several unorganized regional players increasing the competition which mainly affects the asset quality. This is further characterized by captive NBFCs floated by other business houses. The ever existing systemic and delinquency risks and fluctuations in interest rates and risk weight make the companies more vulnerable. Deployment of funds in sensitive and volatile sectors increases the risk exposure while concentration risk increases dependency.

Internal Control Systems and their adequacy

Internal Control measures and systems are established to ensure the correctness of the transactions and safe guarding of the assets. The Management ensures adherence to all internal control policies and procedures as well as compliance with regulatory guidelines. The audit committee of the Board of Directors reviews the adequacy of internal controls. This has improved the management of the affairs of the Company and strengthened transparency and accountability.

We have audited the internal financial controls over financial reporting of TCI Finance Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls over Financial Reporting" issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

TCI FINANCE LTD. Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the "Guidance Note on Audit of Internal Financial Controls over Financial Reporting" (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk whether a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of TCI Finance Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of directors of the Holding Company, its subsidiary company which is incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls over Financial Reporting" issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the "Guidance Note on Audit of Internal Financial Controls over Financial Reporting" (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk whether a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion
